

HARSH DUBEY

Full Stack Developer • MERN Stack • React.js • Node.js • REST APIs
hd84339@gmail.com • Mumbai, Maharashtra, India • [linkedin.com/in/harsh-dubey-498498256](https://www.linkedin.com/in/harsh-dubey-498498256)

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on experience building scalable, production-ready web applications using the MERN stack. Skilled in designing responsive UIs with React.js, developing robust RESTful APIs with Node.js and Express, and implementing secure authentication systems with JWT and Google OAuth. Currently contributing as a Full Stack Developer at Webvision Softech, with a strong track record across martial arts platforms, agriculture e-commerce, marketplace, and logistics simulation projects. Passionate about clean code, modular architecture, and delivering impactful user experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive UI/UX, GSAP

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Google OAuth 2.0

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, Vercel, Netlify, Cloudinary, Google Maps API

EXPERIENCE

Full Stack Developer — Webvision Softech Pvt. Ltd.

Dec 2025 – Present | Vasai, Maharashtra

- Developing and maintaining full-stack web applications using React.js on the frontend and Node.js/Express on the backend, contributing to production deployments
- Building and consuming RESTful APIs for client-facing products, ensuring data integrity, security with JWT, and optimized response performance
- Collaborating on responsive UI implementation and backend logic for multiple client projects across e-commerce and service domains
- Conducting code reviews and utilizing Git-based workflows for version control and agile sprint-based feature delivery

PROJECTS

KrishiShop — Agriculture E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, JWT, Google OAuth 2.0, Cloudinary, Tailwind CSS

- Built a production-ready MERN stack agriculture e-commerce platform for fertilizers, seeds, pesticides, and farming tools with full admin and user flows
- Implemented JWT authentication and Google OAuth 2.0 login with protected routes and role-based admin access control
- Developed admin dashboard for product CRUD operations, image uploads via Cloudinary, and featured product management
- Designed scalable RESTful APIs with Express.js and MongoDB following modular MVC architecture for clean, maintainable backend structure
- Created responsive frontend using React.js, Tailwind CSS, and GSAP animations with product search, category filtering, and mobile-first layouts

Kungfu Bharat — MERN Stack Martial Arts Platform | React.js, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack martial arts and fitness platform with dynamic content management, secure admin authentication, and responsive UI
- Built JWT-based admin authentication system with protected routes and a dashboard for managing news, images, gallery, and homepage content
- Designed RESTful APIs using Node.js and Express.js for dynamic content handling and admin operations, integrating MongoDB for media and content storage
- Deployed responsive React.js frontend on Vercel with optimized component-based architecture for production usage

Variety Megamart — E-Commerce Frontend Application | React.js, REST APIs, Tailwind CSS

- Developed responsive frontend interfaces including product listing, filtering, cart flow, and UI components using React.js and Tailwind CSS
- Integrated frontend with backend REST APIs (including Laravel APIs) for dynamic product and order data rendering
- Implemented Redux and Context API for global state management across shopping cart and user flows with lazy loading for performance optimization

EDUCATION

Bachelor of Science — Mathematics and Computing

2023 – 2026

VIVA Institute of Technology, Mumbai, Maharashtra

CERTIFICATIONS & ACHIEVEMENTS

- Top 10% React.js Coder — Verified Performance Certification
- Certificate of Completion — Full Stack Web Development
- Deployed 5+ production-grade full-stack projects spanning e-commerce, marketplace, martial arts, and logistics compliance domains
